

# QSport eNews

Because of the COVID-19 emergency, QSport is supporting a planned series of free webinars being facilitated by Active Queenslanders Industry Alliance to provide urgent financial and revenue advice to clubs and organisations.

Everyone is welcome to participate, and we encourage more than one club committee member to join the webinar.

Once a committee member or staff member registers they will receive financial templates - these will be fully explained during the session.

The spreadsheet templates will automatically produce financial figures for clubs' projected revenue and income during this period of closure. Additionally, there will be some discussion on how to raise funds during this period.

The webinars will be straightforward and practical and are designed to help clubs save themselves from financial disaster.
